### NOTICE TO PROCEED

You are hereby notified that the STOP WORK ORDER you were sent on August 17, 2005 is hereby rescinded and you are allowed to proceed with work and operations under your right-of-way grant UTU-80785 issued June 10, 2005 for the Green Peak Quarry, access road and waste rock pile.

Based on the field inspection performed on August 24, 2005 by Mike Nelson of my staff and Lynn Kunzler with the State of Utah, all issues of concern have been corrected and you have agreed through your field representatives, Dennis Jorgensen and Tyler Smith, who were present during the field inspection, to carefully follow the terms and conditions of the right-of-way and associated mine plan in the future.

We appreciate your quick action in correcting the deficiencies identified in our order. Please contact Mike Nelson of my staff at (801) 977-4355 or myself if there should be any questions regarding operations at the mine site in the future.
